

Brightspeed Wi-Fi Extenders

What are Wi-Fi Extenders?

- WiFi extenders are small transmitters that communicate with the router and are placed strategically in one or multiple locations at your business to extend the Wi-Fi signal and ensure connectivity throughout the location
- Wi-Fi extenders help to extend internet coverage to indoor and outdoor spaces and dead spots to create strong, uninterrupted coverage.
- Typically, one Wi-Fi extender covers 1,500 to 3,000 sq ft.
- Businesses that are larger than 3,000 sq ft. and/or have multiple levels can benefit from additional extenders.
- The maximum amount of Wi-Fi extenders a customer may purchase is 4.
- Wi-Fi extenders cost \$5.00 each per month plus applicable taxes.
